FedRAMP Reauthorization

Rep. James Walkinshaw
Virginia's 11th Congressional District
U.S. Representative

As expectations for government services continue to evolve, agencies are embracing artificial intelligence and automation to deliver faster, more personalized, and more accessible experiences. This keynote will explore how public-sector leaders are moving from CX strategy to execution, leveraging AI and emerging technologies to modernize service delivery, improve outcomes, and strengthen public trust.

FedRAMP: A Trust Network

FedRAMP is more than an authorization process—it is a trust framework that enables agencies to confidently adopt shared cloud services. This panel brings together agency leaders to discuss how FedRAMP supports mission outcomes, reduces duplicative assessments, and enables faster procurement while maintaining strong security postures.
