

Accelerating Your FedRAMP Authorization Journey with Wiz

Secure your cloud with a FedRAMP High authorized offering. Wiz accelerates your FedRAMP readiness by automating control compliance and continuous monitoring across your environment.

Build a strong security foundation that accelerates your FedRAMP journey with Wiz

Security Defensibility:

Make it easier to gather necessary audit evidence

Faster Feature Adoption:

Accelerate secure, agile development

Continuous Monitoring:

Unified risk assessment and management across code to cloud to runtime

Streamline Operations:

Empower small teams managing FedRAMP environments

Get Started with Wiz for Gov Today

1. **Set a Strong Foundation:** Improve posture and prioritize risks to secure your FedRAMP boundary from day one.
2. **Fast-Track Readiness:** Streamline your path to FedRAMP authorization with automated reporting that supports mapping to FedRAMP Moderate and High controls.
3. **Unified Continuous Monitoring:** Spot risks and changes instantly with full visibility across code, cloud, and runtime – so your security team can move as quickly as your devs.
