Turn FedRAMP Into Federal Revenue

Move faster from certification to agency authorization, operational use, and sustained growth.

FedRAMP | DoD IL | GovRAMP | CMMC

FedRAMP certification is not the finish line. The harder and more expensive work comes next: agency authorization, continuous monitoring, assessments, remediation, reporting and security operations. FedHIVE combines a FedRAMP Class D (High) Certified environment with managed compliance operations and agency authorization support to shorten time to adoption, reduce lifetime cost, accelerate pipeline growth and protect federal revenue.

Architecture Preservation:

"The biggest benefit was not having to redesign our product to fit a containerized accelerator model, and having an ATO we can operate under is a huge differentiator in the acceleration space."

— *Corey Brunkow, Director of Federal Operations, Horizon3.ai*

Alignment with Government Priorities and Leaders:

"FedHIVE®'s focus on FedRAMP High aligns with industry needs and future trends, and its direct line of communication with the government provides a significant advantage."

— *Adam Moyer, SelectTech*

Faster, Simpler Assessment Coordination:

"With FedHIVE®, we didn't have to go out and gather quotes from multiple 3PAOs or manage that process ourselves. We simply provided the necessary information, and they handled everything." — *Christine Owen, 1Kosmos*

"FedHIVE® became our knowledge base instead of having to Google things or ChatGPT compliance answers. It makes our lives a lot easier." — *Kevin Dubac, FileCloud*

Move Faster from ATO to Revenue and ROI

FedHIVE® provides the platform, operational expertise, and trusted guidance to help you launch faster, stay compliant, achieve ROI faster and confidently sustain long-term growth.

44%

FedHIVE.com

Turn Security Readiness into Agency Adoption

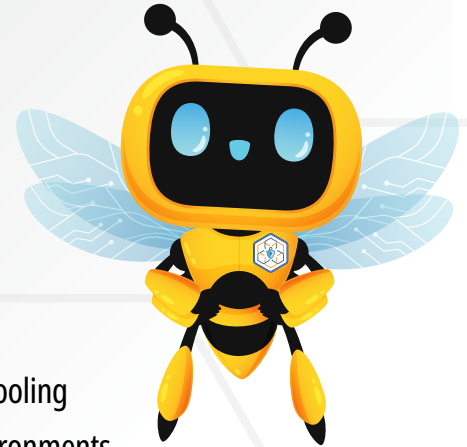

Avoid the cost, complexity, and uncertainty of building and maintaining secure, compliant federal environments and navigating the FedRAMP process on your own. We take on the heavy lift and risk of managing the hosting environment, sponsorship, government relationships, the compliance process, and government engagement so you don't have to.

Get Certified. Get Authorized. Stay Ready.

Achieving authorization is just the beginning. FedHIVE® manages the ongoing work required to maintain compliance—from continuous monitoring and annual assessments to reporting, government briefings, and support for evolving business needs. We help prevent compliance drift and keep your authorization aligned with your growth.

Why Organizations Choose FedHIVE®

- ✓ Defensible Compliance for Your Organization and Agency Customers
- ✓ 30 Years of Government Modernization & Compliance Expertise
- ✓ Trusted by Agencies, Innovators, and Fortune 500 Enterprises
- ✓ Former FedRAMP & DISA Experts Helping Customers Achieve & Maintain Compliance
- ✓ Eliminate the Need to Hire and Manage 2–4+ Full-Time Compliance Personnel
- ✓ Reduce the Risk of Delays, Failed Assessments, and Costly Rework
- ✓ Migrate Existing Tech Stacks with Minimal Re-Engineering, Re-Architecting and Re-Tooling
- ✓ Up to 80% lower in onboarding costs for additional applications and production environments
- ✓ Avoid \$1.5M-\$3M+ and 1-3 Years Required to Build a FedRAMP Class D (High) Program Internally
- ✓ End-to-End Management: Hosting, Sponsorship, Government Engagement & Ongoing Compliance
- ✓ Deployment Flexibility: Supports Virtual Machines and Containers (Supported but not Required)
- ✓ Supports Cloud-Native Applications, Private Cloud, AWS, Microsoft Azure, Google Cloud and Hybrid Deployments
