

A Smarter Platform for Mentoring & Connection

At Chronus, we're passionate about people learning from one another. That's why we created the industry's leading mentoring software to enable organizations like yours to develop effective mentoring programs that engage and advance your people. Backed by seasoned mentoring professionals and organizational development experts, Chronus software is here to help the people in your organization thrive.

Many of the world's largest enterprise organizations rely on the Chronus mentoring platform to drive people development programs with seamless integrations into the systems they're already using.

How Chronus Mentoring Works

Let go of the cumbersome manual processes that bog down your mentoring initiatives, and let our platform take on the heavy lift. Leverage functionality that's pioneering the mentoring space with AI-Powered matching, in-app guided conversations, ROI dashboards, and integrations to produce impactful results.

Enroll

Launch your mentoring program smoothly with our streamlined, step-by-step process

Match

Configure our powerful AI-powered MatchIQ® algorithm to build robust profiles and precisely match users

Guide

Drive mentoring relationships through a guided experience, providing moments of reflection and keeping progress on track

Measure

Configure your metrics dashboard and reporting to elevate the most important insights and drive results

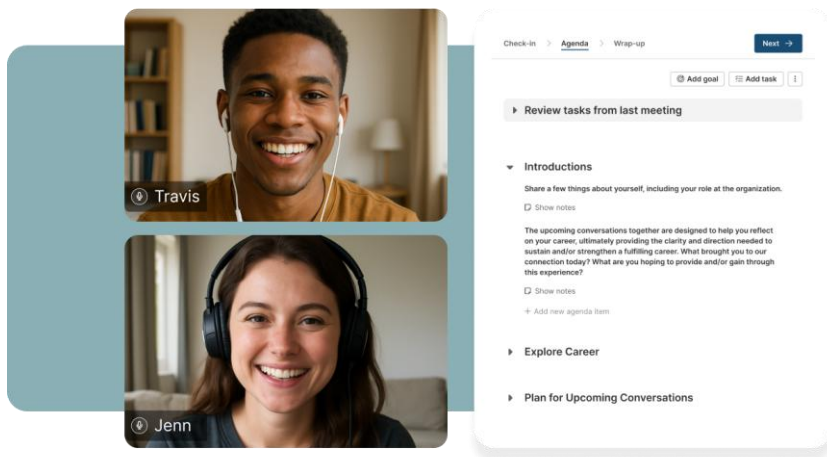

Grow

Easily scale your mentorship program and culture to positively impact more people in more locations

Mentoring Made Better

Unlike other mentoring solutions, Chronus is prepared to help you avoid engagement challenges with our seamless integrations into your organization's tech stack. With the industry's leading mentoring software built into the everyday tools of your organization (Workday, Slack, MS Teams, Google Workspace, Zoom, and more), participants receive an optimized, engaging experience.

Equipping You to Drive Results

Improve user engagement and retention that drives your competitive advantage by fostering a more productive, innovative and engaging culture. Our software and years of experience equip you to track metrics that showcase your mentoring program impact to stakeholders.
