

Securing Your Data, Scaling Your Impact

Chronus offers the most scalable and secure mentoring, conversation and employee community platform available on the market.

Security

Our best-in-class security and compliance gives organizations the confidence to deploy employee development programs and communities at scale without compromising data integrity or privacy.

Only Platform in the Industry to be Department of Defense IL4 Certified

- ✓ Chronus is the first and the only mentoring and employee community platform to be both DoD IL4 (Impact Level 4) and FedRAMP Moderate certified for meeting their highest levels of security requirements.
- ✓ Chronus underwent rigorous security assessments and was authorized by Defense Information Systems Agency (DISA) for having all the security features and controls in place to protect the highly sensitive information of our DoD and Federal customers.
- ✓ Chronus is also proudly certified with SOC 2 Type 2, ISO 27001 and CSA STAR (Level 1) certifications, showcasing our strong security posture.

Trusted by Leading Enterprises

For years, Chronus has been the leading partner for top enterprises, running scalable employee development programs with the highest level of security.

Exceeding Security Standards

Chronus follows the highest level of security best practices in the industry both at the infrastructure and application level. Our metrics and security best practices are a testament to our security posture.

With a flawless record of zero security incidents, Chronus safeguards your data with continuous vulnerability scans and advanced firewall protection.

We conduct periodic third-party penetration tests, and our network is protected by state-of-the-art intrusion detection systems.

Privacy

- ✓ Chronus ensures full compliance with data protection regulations such as General Data Protection Regulation (GDPR) and the California Consumer Privacy Act (CCPA).
- ✓ Users have complete control over their data, with clear, transparent policies about data collection, use and sharing. Refer to our [Privacy Policy](#) to learn more.
- ✓ Chronus provides end-to-end data encryption, both at rest and in transit, ensuring that unauthorized parties cannot access or understand the data, preserving its integrity and confidentiality.
- ✓ Chronus is committed to collecting only the data that is necessary for our service to function, thereby minimizing exposure and risk.
- ✓ Access to data is limited to few individuals in the organization and employees are regularly trained with phishing simulations and secure development practices.

Scalability

Robust & Resilient Infrastructure

Chronus' infrastructure scales automatically to handle any sudden spike in requests, and is tested to handle up to 20,000 concurrent requests per minute. We guarantee 99.9% uptime SLA (achieving 99.99% consistently for last several years).

Application Scalability

Chronus supports employee development programs and employee communities with up to 250,000 users. All end user features are continuously tested to handle the supported volume. We currently run several programs with over 200,000 active users in a single program.

Chronus maintains an average page load time of under 1.7 seconds across various geographic locations and devices, ensuring a seamless user experience for participants.
