Jamison Braun
SVP & Managing Director, U.S. Public
Services
SAP

9:20 AM EDT
25 MINS

Government Keynote

Public sector leaders face a defining moment: citizens expect the same speed, simplicity, and personalization from government that they get from any modern service, while agencies contend with legacy systems, tightening budgets, and rising demands. In this keynote, attendees will explore how forward-thinking agencies are using intelligent technology to close that gap. Drawing on real-world transformation stories, this session offers a clear-eyed look at what's possible when government modernization is treated not as an IT upgrade, but as a mission-critical investment in the people it serves.

The Messiness of Modernization: Lessons, Progress and the Path Forward

Alaleh Jenkins

Performing the Duties of the Assistant
Secretary of the Navy (Financial
Management and Comptroller)
Department of the Navy

Modernization is rarely a straight line—and that’s part of the journey. In this candid conversation, government leaders will share the realities of transforming legacy systems, navigating organizational change, balancing competing priorities and turning technology investments into mission outcomes. Speakers will explore what’s working, lessons learned along the way, unexpected challenges and the breakthroughs that are helping agencies build a more modern, agile and mission-ready government.

The AI-Enabled Agency: Turning Trusted Enterprise Data into Autonomous Action

As agencies modernize for the future, enterprise transformation has become a strategic imperative and not just a technology initiative. Government leaders will discuss how AI, automation, and connected data are reshaping the enterprise, from streamlining core operations to enabling faster, more informed decisions. The conversation will explore what it takes to responsibly scale AI across the organization, modernize legacy environments, connect people and data, and build a more intelligent, resilient enterprise capable of delivering better mission outcomes.

Networking Lunch

1:30 PM EDT
30 MINS

Track 1.C: Data & AI

Data is only as powerful as the decisions it drives. Learn how government agencies are using AI to cut through complexity, automate routine work, and turn siloed data into mission-ready insights, responsibly and at scale.

1:30 PM EDT
30 MINS

Government Breakout Session 1

During this block we will feature four different tracks to include:

- Data & AI
- Finance & Spend Modernization
- Supply Chain
- Travel & Expense

More details to come!

1:30 PM EDT
30 MINS

Track 1.A: Supply Chain

This breakout session explores how agencies are modernizing supply chain operations with real-time visibility, predictive analytics, and integrated planning to move from reactive to resilient. Attendees will learn practical strategies for reducing risk, improving vendor collaboration, and turning supply chain data into a strategic asset —not just a logistics function.

1:30 PM EDT
30 MINS

Track 1.D: Travel & Expense

Travel and expense shouldn't be a headache for employees or a compliance risk for finance. Discover how agencies are automating T&E processes to save time, improve visibility, and stay audit-ready, without adding friction.

1:30 PM EDT
30 MINS

Track 1.B: Finance and Spend Modernization

Government agencies can't afford financial blind spots. Discover how leading organizations are gaining real-time visibility into spend, strengthening compliance, and turning budget data into smarter, faster decisions.

2 PM EDT
10 MINS

Government Breakout Session 2

During this block we will feature four different tracks to include:

- Data & AI
- Finance & Spend Modernization
- Supply Chain
- Travel & Expense

More details to come!

2:10 PM EDT
30 MINS

Track 2.C: Data & AI

Data is only as powerful as the decisions it drives. Learn how government agencies are using AI to cut through complexity, automate routine work, and turn siloed data into mission-ready insights, responsibly and at scale.

2:10 PM EDT
30 MINS

Track 2.B: Finance & Spend Modernization

Government agencies can't afford financial blind spots. Discover how leading organizations are gaining real-time visibility into spend, strengthening compliance, and turning budget data into smarter, faster decisions.

2:10 PM EDT
30 MINS

Track 2.D: Travel & Expense

Travel and expense shouldn't be a headache for employees or a compliance risk for finance. Discover how agencies are automating T&E processes to save time, improve visibility, and stay audit-ready, without adding friction.

2:10 PM EDT
30 MINS

Track 2.A: Supply Chain

This breakout session explores how agencies are modernizing supply chain operations with real-time visibility, predictive analytics, and integrated planning to move from reactive to resilient. Attendees will learn practical strategies for reducing risk, improving vendor collaboration, and turning supply chain data into a strategic asset —not just a logistics function.
